

GatherPath™

Professional Networking & Knowledge Sharing

GatherPath is a **closed social network** that allows professional groups to utilize personal networking and data exchange for business purposes. GatherPath is **web-based** but is not open to the public; access is limited to licensed groups. With GatherPath, colleagues can safely interact over the web, better get to know one another, share information, communicate faster, and work together to solve problems.

FEATURES

Interact

Broadcast questions, hold online discussions, share ideas, and receive feedback from your entire community.

User Profiles

Browse user profiles to learn about your peers and their professional skills. Get to know the people you work with. Put names with faces. Find the right partners for new challenges.

Dynamic Notification

Stay up-to-date on all activity within your community using automatic updates customized to your areas of interest.

Threads

Find solutions using question-and-answer forums.

Blogs

Share thoughts, ideas, news, and opinions in an interactive format.

Simplified Navigation

Use a friendly interface that includes large text, simple menus, and colorful icons.

Search

Let GatherPath find people & information for you.

Data Warehousing

Benefit from all information contributed to the community—past and present—by searching through a comprehensive Knowledge Bank for ideas and solutions.

Ease-of-Use

An intuitive design and plentiful pop-up tips help users of all skill levels to get started.

Help

Find extensive help files and step-by-step walkthroughs online, plus live phone support.
